Join our free workshop series for parents and carers. Through six interactive sessions, you'll learn practical skills and strategies for building stronger relationships with your teen. We teach you how to notice teens' emotions, especially before they become overwhelming for the teen.

Learn emotion coaching to help your teen understand and manage their feelings. You'll learn about emotional intelligence, how to name emotions, support your teen when they're upset, and develop skills to help you to remain close and keep communicating.

Teens with higher emotional intelligence:

- have greater success with making and keeping friends
- have better concentration at school
- are more able to calm down when upset or angry.

Tuning in to Teens® helps parents to:

- improve interactions and better understand their teen
- help their teen learn to manage their emotions and deal with conflict
- help to prevent behavioural problems.

Term 1 Sessions:

When	Location	Cost
Mondays, 10:00am–12:00pm, 3 March to 14 April (except 10 March)	Woden Library	Free, but registration is essential as places are limited.

Join us and learn to support your teen's wellbeing.
